RESPONDERS' COMMENTS FOR EC 201 732 (US21)**Question 6: Please provide any comments concerning this course and/or instructor below.**

- Excellent pacing and instruction as well as great responsiveness towards emails regarding questions for the class content
 - Great teacher who made it very easy to learn the course with good examples and visual problem solving.
 - I liked the videos for this course.
 - I really enjoyed this class and felt like I learned a lot. Professor Gardner was always willing to help when needed and really explained the material well. I would highly recommend this course to other students.
 - I really liked him he was very nice and had an effective way of teaching the material.
 - Instructor was great and very nice. The only problem was with the mid term exam. It wasn't all the same questions as we were practicing and the time was a little too short for the exam.
 - Professor Gardner was great.
 - The course was not something I thought would interest me but the professor made it extremely interesting and helped break down any hard or unknown concepts. I would recommend him to anyone looking to take this course.
 - The lectures for only reviewing things I thought could be a little pointless at times. I think it shouldn't be required and only there for the help of the kids who struggle a certain week. It did help sometimes but it just shouldn't be mandatory.
 - The T.A. made the course a pleasure to take, I would recommend the course with this T.A. to anyone who asks.
 - The videos were boring and sometimes the professor had to re say materials because the slides didn't move with him.
 - This class was very informative in a way that made me more interested in the subject being taught by the instructor.
 - This course is definitely challenging at times, but Professor Gardner did a good job explaining the material.
 - Very caring professor.
 - Weekly zooms were very helpful.
