Economics 202: Section 001:	Introduction to Macroeconomics, Fall 2021 Monday, Wednesday, Friday, 11:30 a.m. to 12:20 p.m.	
Location:	Ernst Bessey Hall Room 108	
Instructor:	Graham Gardner	
Instructor's E-mail:	gardn366@msu.edu	
Office Hours:	MW, 12:30pm – 1:30pm (in person, room: Old Botany 202)	
	Tuesday, 9:30am – 10:30am (zoom, scheduling link: calendly.com/gardn366)	
	Thursday, 10:00am – 11:00am (zoom, scheduling link: calendly.com/gardn366)	
	I am also available by appointment.	

Welcome!

The purpose of this document is to describe what you can expect this semester. I will begin by stating my main goal for the semester: I want everyone to succeed in this class! Whatever your background, I want you to know that **you belong** here, and **you can** succeed in this course. The Office of Admissions would not have admitted you otherwise.

I am here to help you. I have regular office hours (shown above) and am also available by appointment. I check my e-mail regularly, including the night before exams. I will do my best to prepare you for the midterms and final exam. Please let me know if there is anything else I can do to help you succeed.

So, let's work together to make sure that everyone learns some economics, has some fun, and has a great semester!

Course Overview

Should the United States impose a steel tariff on China? How can we prevent another Great Depression? What are the effects of an income tax increase? What is the purpose of the Federal Reserve?

These questions significantly impact people throughout the United States and around the world. This semester, we will investigate all of them, and many more. The topics we study will generally fall into two groups:

- 1) Understanding various terms you hear on the news that reflect the overall health of the economy, such as GDP, unemployment, and inflation.
- 2) Understanding theories of macroeconomics and how these theories lead to predictions about how we expect economies to function and how government intervention can help or hurt a nation's economy.

Textbook

The textbook for this course is <u>Principles of Macroeconomics by Stevenson and Wolfers 1st Edition</u>. In addition, this class involves a **required online resource**, Achieve, which includes an e-book version of the textbook and the online homework.

Where to Purchase Achieve Access:

- 1. <u>Via Course Content in D2L</u>: You can purchase Achieve access directly through the D2L course. Look for "Achieve Access" in the Administrative folder. You CANNOT access our specific course outside of D2L so **you must always go through D2L to get to Achieve**.
 - As a reminder, Achieve includes the e-book you do not purchase it separately

- At checkout, you will be given the option to also purchase a printed text (this is optional and not required)
- Achieve recommends that international students use PayPal to purchase Achieve via the link in D2L
- 2. <u>At any MSU Bookstore</u>: You can purchase Stevenson/Wolfers MACRO Achieve access code and use that access code via the Achieve link in D2L.
 - The price to students at a bookstore varies by store.
 - The bookstores will also have Achieve Access bundled with a printed copy of the textbook if you prefer.

Notes on Accessing Achieve:

- Recommended web browser is Google Chrome. Achieve is not supported on Mobile Devices nor Safari.
- Make sure you have disabled your pop up blocker! (if it's on, a red dot will appear in the address bar when you try to open Achieve on D2L) <u>How to Disable Pop Up Blocker in Chrome</u>
- Students will need to clear cache/cookies regularly (especially if assignments do not open): <u>How</u> to Clear Cache and Cookies
- Need help? **Contact Macmillan Achieve Customer Support** via chat here: <u>Achieve Tech Support</u> <u>Online Chat</u>

Graded Components

Item	Percentage
Two highest exam scores	70%
Homework	15%
Attendance and Participation	15%

Exams

There will be a total of three exams – two midterm exams and a final exam. They will be administered during regular class time. The final exam will also be administered at the time and location specified by the University. **Only your two highest exam scores will count toward your course grade.** This formulation is intended to address issues such as illnesses or other emergencies, as well as if you just have a bad test day. Moreover, this allows students who have shown their comprehension on both midterms and are satisfied with their grade to skip the final exam, thereby basing their grade on the two midterm exams.

If you must miss an exam for reasons that can be anticipated (university-sponsored activities, religious observances, and other valid issues), an alternative exam time will be offered for the days before an exam. Reasons that can be anticipated must be conveyed to the instructor **at least one week before** the scheduled exam. **No make-up exams will be given after an exam.** If you do not take an exam, that will be the exam that is dropped when I calculate your final course grade. If you believe you have had issues with multiple exams that require special consideration, you must fully document the multiple issues and schedule an appointment with me to discuss. Unless there were legitimate and documented excuses that have kept you from multiple exams (a situation that will be rare), further accommodations will not be provided.

Time Policy: To ensure each student has the same amount of time, all exam time cutoffs are strict.

Request for Accommodations: If you are eligible for an accommodation, please contact the Resource Center for Persons with Disabilities (RCPD) as soon as possible. Once RCPD has certified that you are eligible for an accommodation, please bring the VISA form to me as soon as possible so that appropriate arrangements can be made.

Homework

This semester we will cover approximately 19 chapters of the textbook. There will be one homework assignment for each chapter. Each assignment will be weighted equally.

Assignments will be completed online using Achieve. These homework assignments are labeled on Achieve as a "Practice Quiz" under the Chapter Assessments tab. Homework assignments are graded for accuracy, but you can complete them as many times as you'd like leading up to the due date.

Each assignment will be due at **11:59 p.m. on a Sunday**. Your **three lowest assignment scores will be dropped**. This is intended to account for illness, forgetfulness, travels, and computer issues. Because you will always be given several days to complete each assignment, the cutoff times are firm. I recommend you complete the modules before the due date so that you have plenty of time to resolve any issues that arise. No late assignments are accepted.

iClicker

I will be using iClicker to make our class time more engaging. This will help me understand what you know, give everyone a chance to participate, and increase how much you learn in class. This will also provide you with feedback on how well you are comprehending course content.

iClicker is how I will determine the attendance/participation portion of your course grade. You will receive credit for <u>answering</u> each question, and your answer does not need to be correct. To allow for a small number of class absences, the iClicker grade will be curved 10%.

You are required to participate with the iClicker student app on a smartphone, tablet, or laptop. It is your responsibility to follow the steps below to properly register your iClicker account in a timely fashion. It is also your responsibility to regularly check your iClicker records for any discrepancies and bring them to my attention within 48 hours.

In order to participate in my iClicker activities and ensure that your grades are properly reflected in the gradebook, follow the steps below:

- 1. Log in to Achieve and click the iClicker link in the yellow banner at the top of the course page. If you do not already have an iClicker student account, <u>create one</u>
 - If you already have an iClicker account, sign in. DO NOT create a new account. You can only receive credit from one account.
 - iClicker access is included with Achieve, so there is no extra cost to participate in class with the iClicker student mobile or web app! You do not have to buy an extra access code or subscription
- 2. Add my iClicker course to your iClicker account.
 - In your iClicker account, use the + sign to search for my course
 - In the "Find Your Institution" field, enter "Michigan State University"

- In the "Find Your Course" field, enter "EC202-001"
- Select "Add This Course" and it will be added to your main screen
- 3. Set up the device(s) you'll use to participate in class.
 - You can download the iClicker student mobile app view the App Store or Google Play, or you can use the iClicker web app by signing in as a student at http://iclicker.com/

Course Grade

Course grade cutoffs are shown below:

Transcript	Minimum Course
Grade	Grade
4.0	89.00
3.5	82.00
3.0	74.00
2.5	67.00
2.0	58.00
1.5	55.00
1.0	52.00

Please note that these cutoffs are strict. If you have a score of 81.99, you will receive a grade of 3.0. Because this course is so large, no matter what cutoff I use, there will be people who missed out on a higher grade by a fraction of a percentage point.

While the exams are not curved, you have two things working in your favor when it comes to your course grade. First, I expect the non-exam component of course grades – which is 30% of your grade – to have a median score of 100%. Second, course grade cutoffs are likely lower (more generous) than may see in other classes.

Grading Issues

All grading issues must be raised **within one week** of when your grade is provided to you. Because almost all grading is done by computer, mistakes are very rare, and it is unlikely that your grade will be adjusted.

Course Attendance

I have included the Participation component of your grade to motivate you to attend class. I believe you will gain much more from the class if you attend consistently. Moreover, exams will cover the material I lecture about during class. Please come. If you must miss class, please review my lecture slides and get notes from other students. If any questions remain, please ask the teaching assistant, visit the economics help room, or attend office hours. When you do attend class, which I sincerely hope to be often, please be respectful of other students and me. Distractions – including talking, ringing phones, and noisily coming or going during class – affect the learning environment for everyone.

Respect

Almost all students act respectfully toward their classmates, the teaching assistants, and me. However, there are extremely rare instances when students, for example, are disruptive during class or rude to me or the teaching assistants. In these instances, I reserve the right to deduct points from your grade.

Honor Code

Your behavior is governed by the Spartan Code of Honor. If you do not yet understand your responsibilities under this code, I urge you to go to <u>http://splife.studentlife.msu.edu/spartan-code-of-honor-academic-pledge</u> to learn more. I will do my best to discourage cheating by actively proctoring exams, but there is a limit to what I can do. **Ultimately, you should recognize that nothing we do in this course is worth jeopardizing your integrity over.**

Course Policies

I will strictly follow course policies, simply because it is not fair to deviate from these policies for some while applying them to others. If you believe you have circumstances that warrant special consideration, I will listen to your circumstances. However, I have designed the course to cover most situations (e.g., all students will have one exam score dropped), so I anticipate needing to accommodate very few special requests.

I am always happy to explain the reasoning behind any course policy. I strive to be objective and treat everyone fairly.

Administrative Matters

I occasionally will tell you information related to course administration. For example, I may extend the deadline of a homework assignment. You are responsible for any material which is (a) in the syllabus, (b) sent to you via e-mail, or (c) included in class slides. I will typically convey this sort of information multiple times.

There is a folder on D2L called "Administrative". It contains the course syllabus, a help room schedule, and other administrative materials.

Please do not ask me or a teaching assistant an administrative question that could be answered by looking at the syllabus, an e-mail, the class slides, or the "Administrative" folder on D2L.

E-mails

If you are uncertain of a matter related to course administration (for example, if you do not know when a homework assignment is due), please take the following steps

- 1) Check the syllabus
- 2) Check the syllabus again, just in case
- 3) Check your e-mails from me and the teaching assistants
- 4) Review the class slides that have been posted and your notes on slides that have not yet been posted
- 5) Ask a friend
- 6) Email myself or one of the TAs

Please try your best to check all available information before sending an email to me or one of the TAs. If this happens, you may receive an email back stating to "check the corresponding section of the syllabus" or "see this email from the instructor." These responses are more direct for the purpose of saving time.

Okay, now that we've gotten through that unpleasant bit, I want to make it clear that I love receiving emails from students! Below are just a few of the many reasons when it would be great for you to e-mail me:

- You did not understand something in lecture
- You are having trouble understanding a concept
- You are having trouble solving a practice problem
- You are confused by a homework question
- You want to talk about something you saw in the news
- You want to talk about something generally related to economics but outside the scope of this course
- You want help preparing for the next exam
- You want general advice pertaining to this course, taking additional economics courses, or college in general
- You want to talk about majoring in economics, or what graduate school looks like
- You have an idea for a research project
- You just want to introduce yourself
- You have a good joke to tell.

Note that all of these are also great reasons to stop by my office hours!

Please include your course number and section number in all e-mail correspondence.

Teaching Assistants

There are several teaching assistants for the course. Please give each of them all the respect you would give me and assume everything they tell you comes from me. These teaching assistants include:

- Iris Margetis: <u>margetis@msu.edu</u>
 - Office hours: Monday 3pm-4pm
 - o Office hours location: virtually via Calendly (<u>https://calendly.com/margetis-1</u>)
- Alex Fos: <u>fosalexa@msu.edu</u>
- Chloe Majzel: <u>majzelch@msu.edu</u>

Getting Help

I want you to do well in this course, and I am committed to providing whatever resources I can. These include:

Office Hours: I will hold office hours on Tuesday and Thursday from 10am to 11pm. I encourage all of you to attend! You can come by if you have questions about the material, and I am also happy to chat with you about any other topic. You are also welcome to just stop by to introduce yourself! With this many students, it is impossible for me to find a time that works for everyone, so I am also available by appointment.

Help Rooms. The Economics Help Rooms offer academic support to students enrolled in this course and strive to enhance students' approaches to studying and learning. In Help Rooms, students may receive assistance in a number of areas, including: completing homework and practice problems; reviewing course concepts; and preparing for exams.

The Help Rooms are staffed by experienced undergraduate and graduate students and operate in the Neighborhoods and Main Library, with numerous sessions offered throughout the week to accommodate students' schedules. A full list of locations and hours of operation will be available within the first few weeks of the semester. Locations and hours will be posted at http://socialscience.msu.edu/HelpRooms. They are also available in the "Administrative" folder on D2L.

Exam Preparation and Review

The teaching assistant and I will have additional office hours before exams. You will be given more information in the weeks leading up to each exam.

Additional Comments and Advice

- 1) I want to reward students who consistently work hard throughout the semester. Nearly 30 percent of your grade is determined entirely by effort and showing up for class.
- 2) I understand that some of the policies may seem harsh. For example, a module submitted one minute past the deadline receives a score of zero. Because this class is so large, I believe it is important to set and enforce strict guidelines. Regarding the module deadlines, if I accept an assignment that is 5 minutes late, it becomes more difficult for me to justify rejecting an assignment that is an hour late, and if I accept an assignment that is an hour late, and if I accept an assignment that is a nour late, and if I accept an assignment that is a nour late, it becomes more difficult for me to justify rejecting an assignment that is a day late, and so on. To treat everyone fairly, I use the same rules for everyone.
- 3) **Do lots of problems.** This is, without question, the best way to prepare for exams. I will post practice problems before each midterm exam and the final. I recommend you do them by yourself, review the solutions, and come to office hours or the Economics Help Room if you have any questions. The online textbook also contains practice problems, and we will do many practice problems in class.
- 4) It is easy to come to class, write down what you see on the slides, click through the homework assignments, and read through your notes before exams. This "bare-minimum" approach will not serve you well on the exams. Instead, be assertive and take ownership of your experience in this class! Which of the examples that we covered in class interest you? Go read some more about them! Is there something you don't understand? Come ask me or ask the teaching assistant! Disappointed with your last exam score? Come ask me for advice! Not sure where to start studying? Do some practice problems!
- 5) A few semesters ago, a professor for Ec202 conducted a survey to try and gauge what kind of study habits successful students in the course had. The main takeaways were that, relative to other students, students who earned a 4.0 in the class were more likely to:
 - Do the practice problems posted to D2L
 - Re-work the Top Hat problems in the slides
 - Not use a laptop computer during class time
- 6) Please do not wait until the last minute to come looking for help. Typically, my office hours are nearly empty at the beginning of the semester and extremely busy in the days before your final

exam. However, that late in the semester, a substantial portion of your grade has already been determined, and it is difficult to learn a semester's worth of material in a short period.

7) Please do not ask me for a grade change or extra credit opportunity after the semester has ended. I am happy to work with you during the semester to improve your grade.
